

Aged 14-18? Interested in technical theatre?

Technical Theatre Programme

at The North Wall Arts Centre
Supported by National Theatre Connections

We are delighted to be running a free open access technical theatre programme for 14 – 18 year olds, with the aim to open up the world of technical theatre to young people and encourage them to consider trying other backstage roles in the theatre industry.

The young technicians will gain skills in technical theatre, attend workshops, complete a portfolio of work and work on shows over the NT Connections Festival weekend at the end of April.

Places are free and travel bursaries are provided.
