CROWN

I love a good
wordsearch!

Make your own royal

crown!!

What you will need:

- A piece of card
- A glue stick
- Scissors
- Roll of masking tape
- Tin foil
- Pens/ Pencils/ Crayons

Step 1

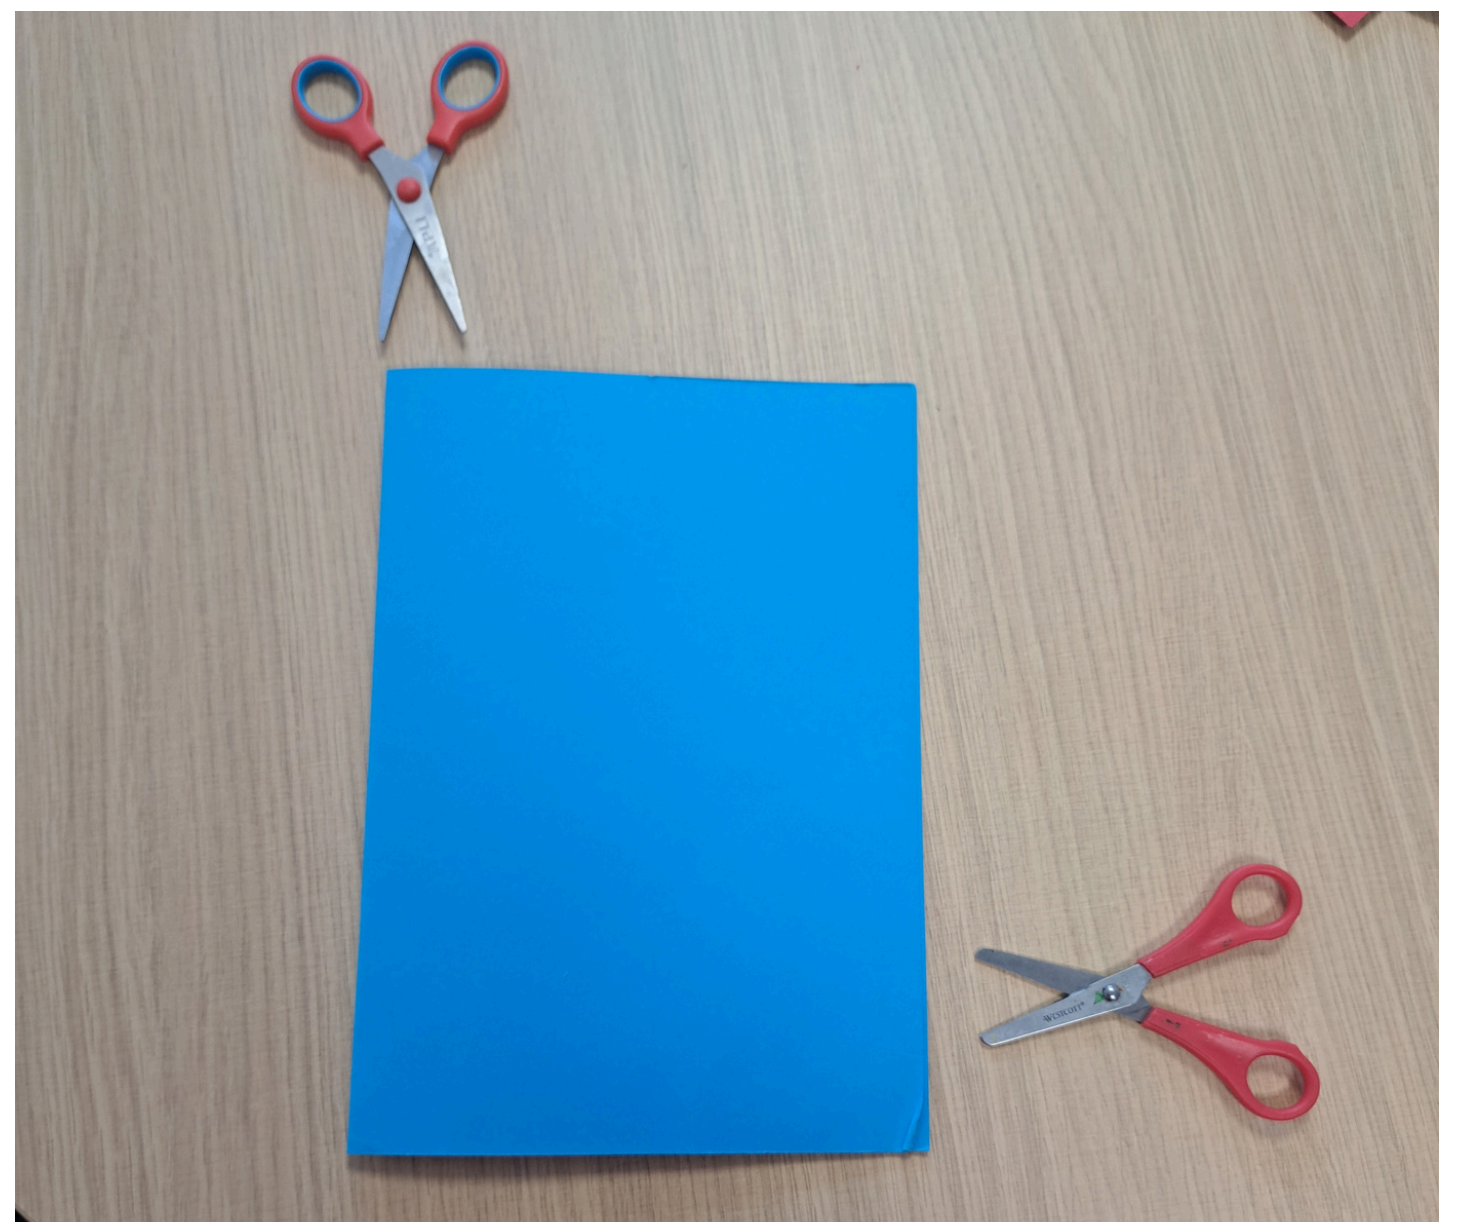

Firstly, take your piece of card and fold it in half.

Step 2

Next choose the side you want to cut, this decision will determine how big your crown will be.

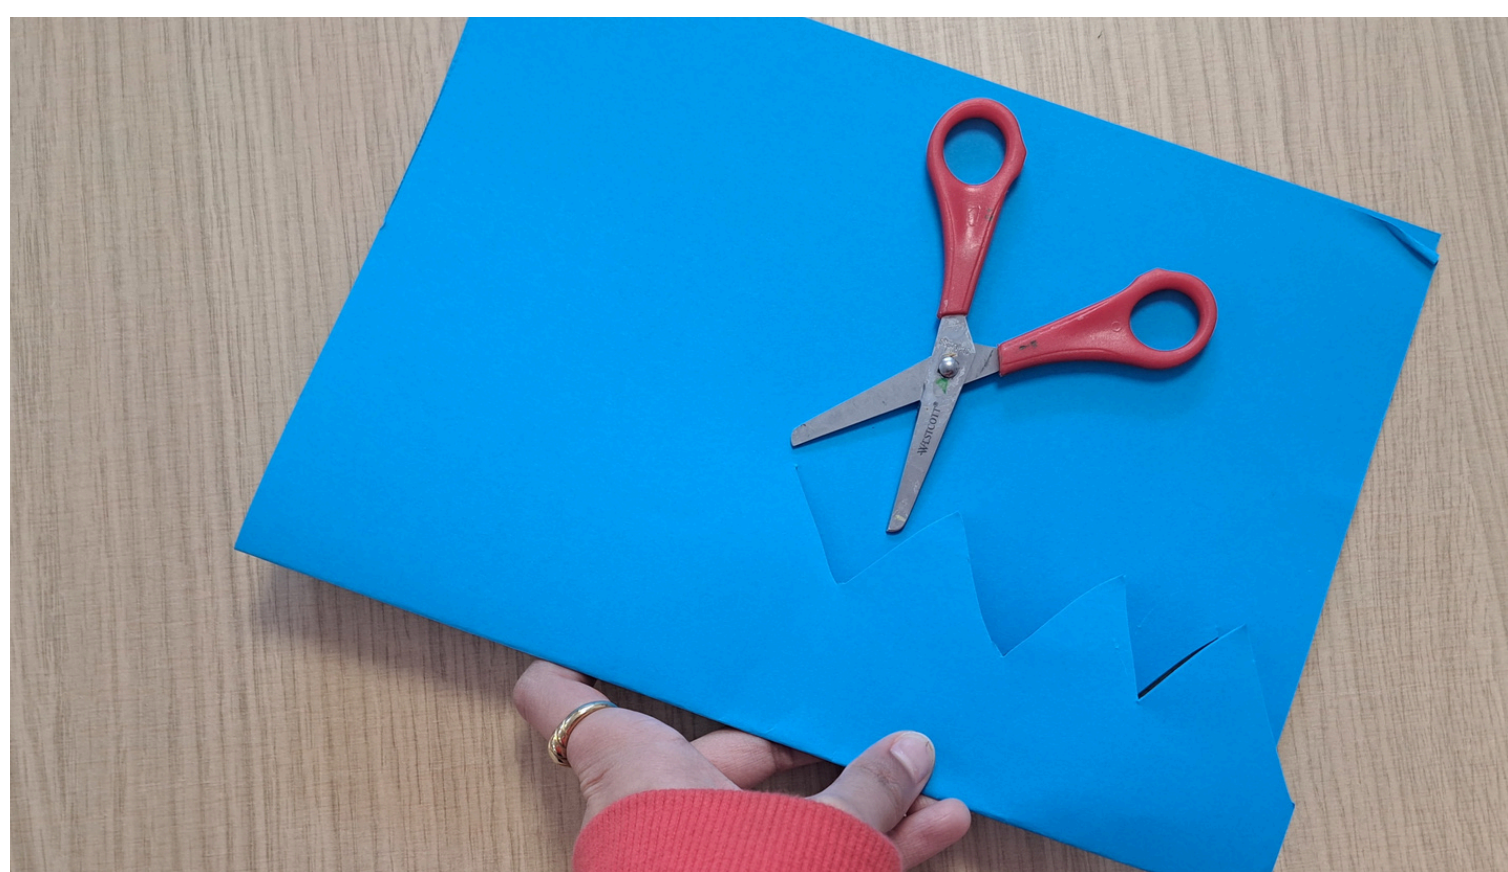

Tip: With the help of a parent or guardian, straighten the paper out and measure if the crown will fit.

Step 3

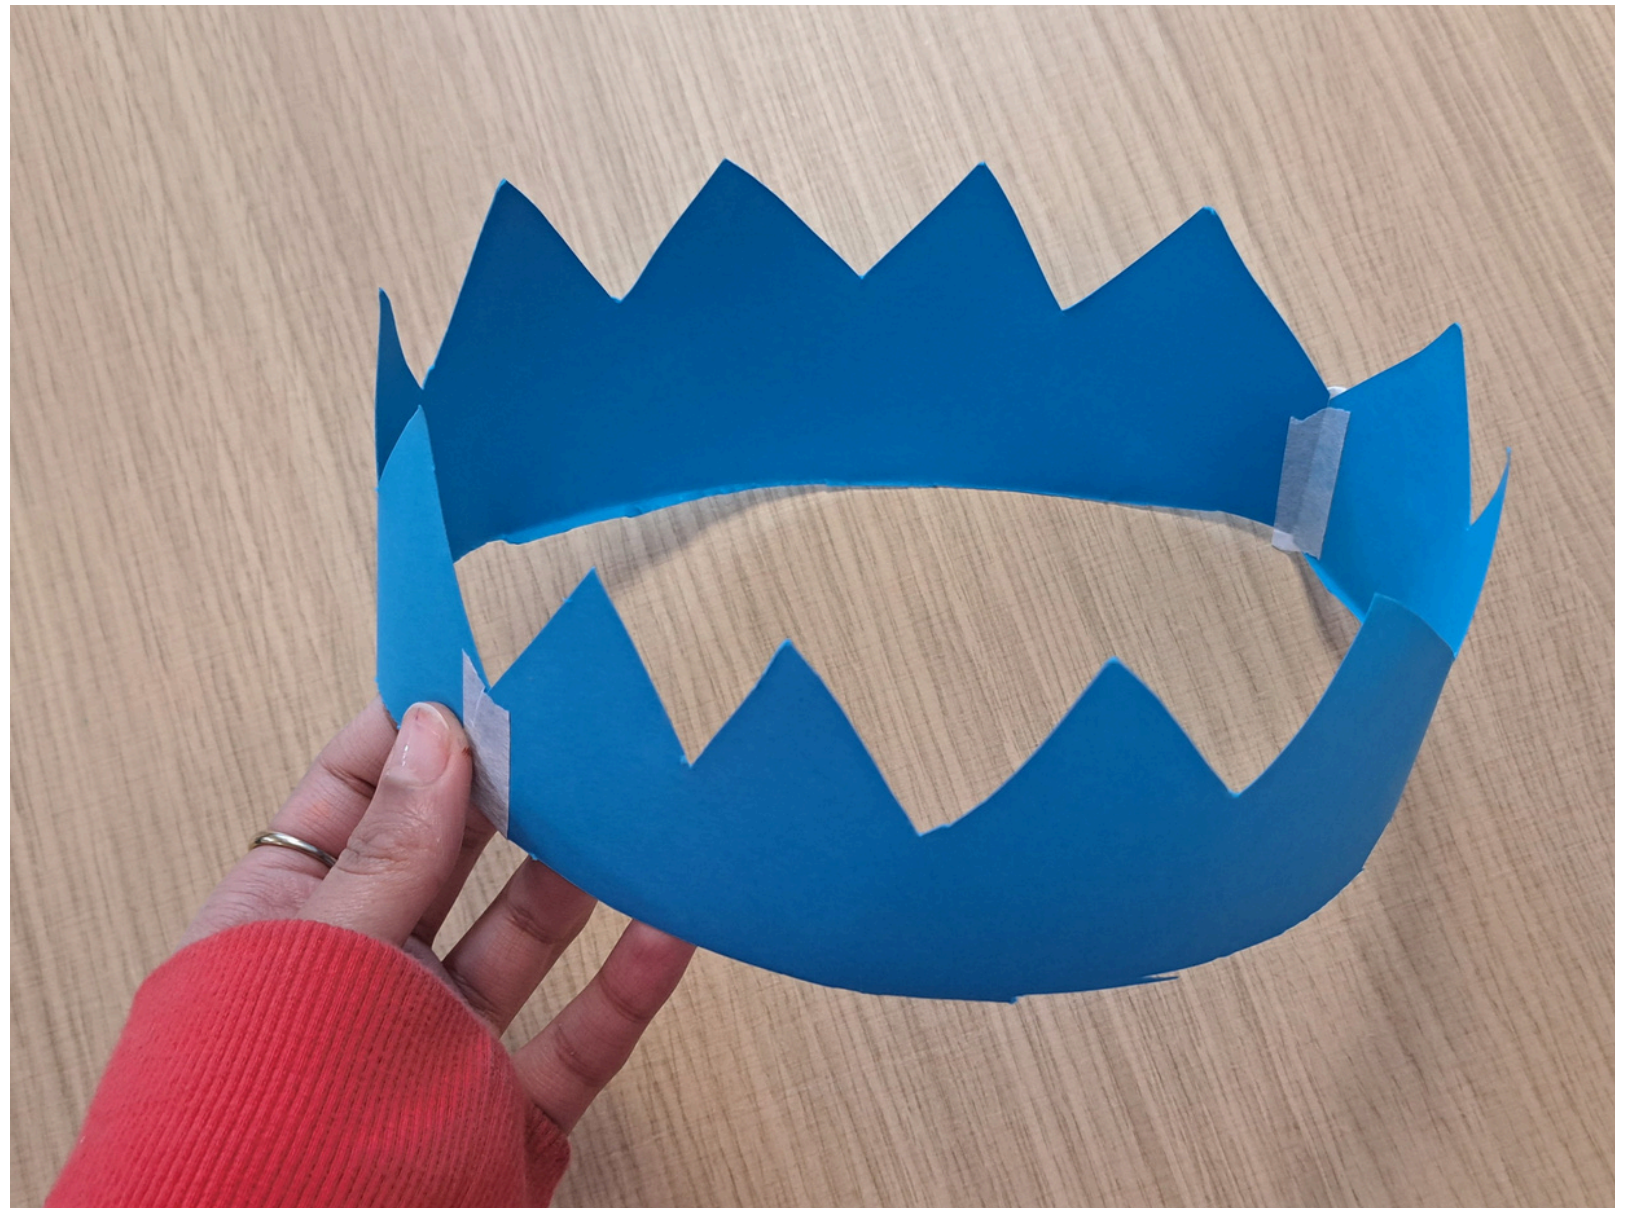

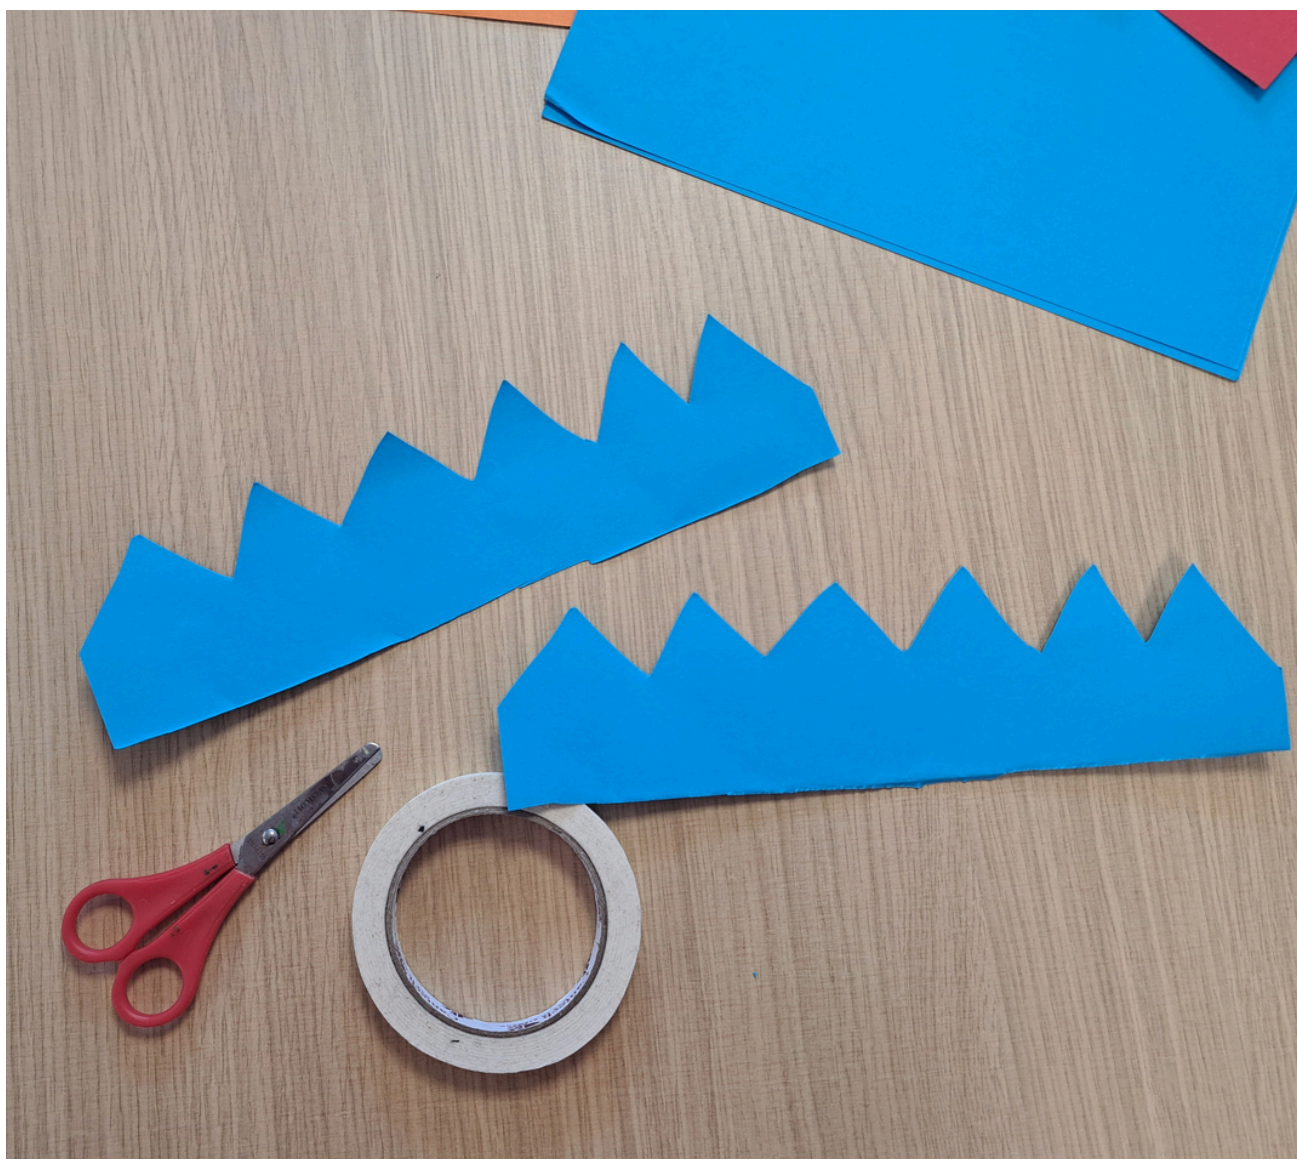

Now you have chosen which way your cutting the card; you can cut out the shapes of the top of your crown.

Tip: Make sure to tidy up your scraps as you go along for more crafting space.

Step 4

After you have finished cutting out the shape of your crown you can cut off any little bits you want to make your crown shape perfect.

Step 6

Next take some pens/ pencils/ crayons to draw what you like onto your crown and use the colours to really make your crown pop, or perhaps you can use some scraps of card to add to it.

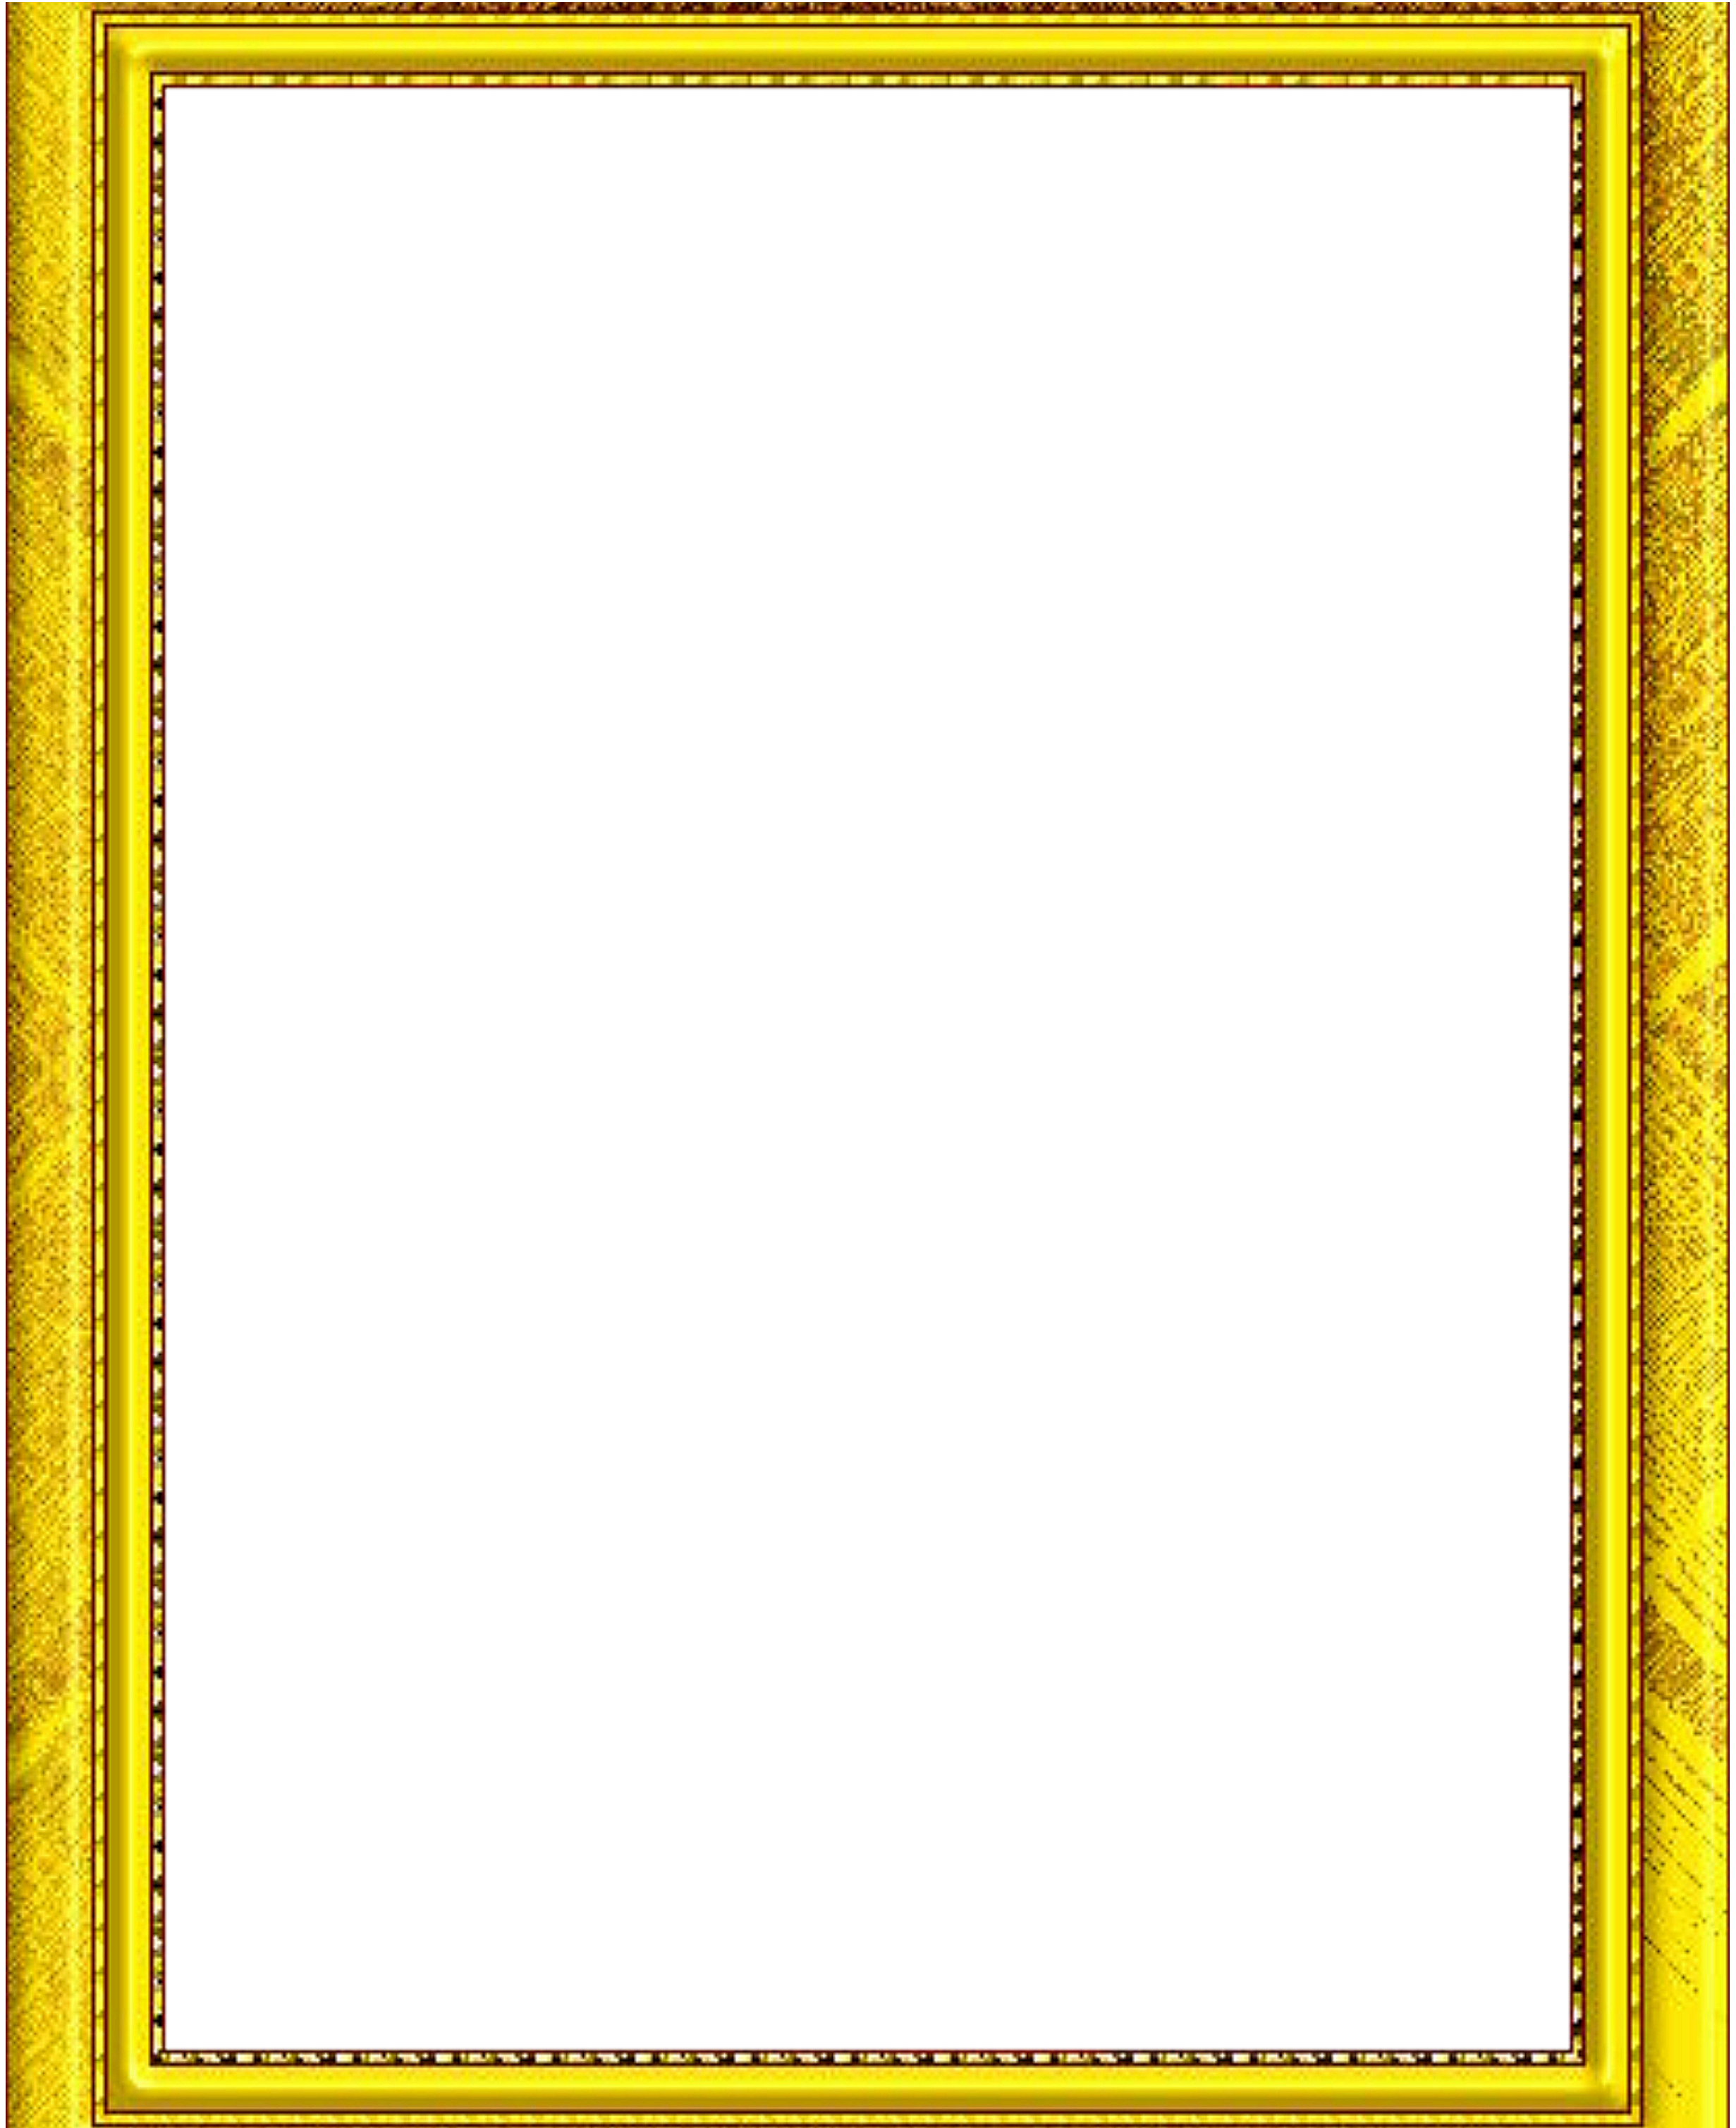

Step 7

Finally put your crown on and see how it fits, now you are all done and you are proper royalty now just like Princess smartypants.

You're are all done and your crown looks incredible your Royal Highness !!

**What was your favourite character
from the show? Can you draw it
inside the picture frame?**

**Owlbert and Norris hope to see you again
soon!**
